Weaver Wonderings:

WELCOME TO 2019!

Parking.... Yes, it has gone from bad to worse and this week has been a challenge to get you parked and in here for picking up bags. I have been working with the VA Police and they just don't have a lot of solutions for us. Here are my suggestions:

1. ALWAYS have your hang tag visible! They are giving us lots of grace if they know it's us!
2. If you can't find a parking spot, go into the employee lot and see if there is something or at least make the circle looking for a spot.
3. Wait and come around 11:00 when we will hopefully have the bags packed and it's a fast in and out.
4. If you have a passenger, send them in for the bag and you keep circling.
5. If you can't find a spot, just call the office number 886-7554 or text me 999-5945 and we will bring the bag out to you! This can only happen after 11:05 when we are done on the line.

Hopefully, this will only last about another week or so BUT we don't seem to have a real good picture of the project. I love to have you in here visiting so I know this is only a temporary issue!
